

VALOR[®]

Mineral Asset Management Outsourcing Solutions for Banks

WHO IS VALOR?

Valor's team of certified professionals is composed of generational mineral owners who have worked in every area of the oil and gas business from owning and managing operating companies, negotiating leases, drafting title opinions, and performing accounting duties.

WHY PARTNER WITH VALOR?

Valor understands the role of a fiduciary and is a leading SOC-1 certified solutions provider to banks and financial institutions. Their team is comprised of CPL and a CTFA with extensive experience in servicing Trusts, Agencies and Foundations.

Valor provides custom-tailored solutions to banks and financial institutions to help cut costs, improve operational efficiency and effectiveness, and provide the best possible experience to their clients. Their full suite of accounting and land management services includes:

- Access to proprietary software, mineral.tech[®], which allows clients to digitally map and manage mineral and royalty assets
- Recovery of missed revenue
- Identification of un-leased mineral rights
- Streamlined accounting
- Mineral ownership verification
- Lease negotiation & counsel
- Mail and Revenue Distribution Services
- Storage, organization, and insight into asset opportunities
- Access to holdings data 24/7, from anywhere in the world

"We believe in integrity and building strong relationships. Valor not only aligned with these values, but they brought a level of expertise and assistance that provided great service to us. Valor's team of experts allowed us to put our trust in them and yield successful outcomes. I recommend Valor as a mineral management and oil and gas accounting service provider."

- V. Neils Agather, The Burnett Foundation
